CLERK: Mr. President, LB 378 was a bill offered by the Public Works Committee and signed by its members. (Read title.) The bill was read on January 17. It was referred to the Public Works Committee. The bill was advanced to General File, Mr. President.

SPEAKER NICHOL: Senator Schmit.

SENATOR SCHMIT: Mr. President and members of the Legislature, this bill amends the Groundwater Management Act to allow that the subirrigation conditions would be one of the factors that would be considered by an NRD when they place the land in a management position or in a land management program. It is a recognition of the fact that subirrigation is of value to certain individuals in certain areas of the state, particularly western Nebraska, and there was no opposition to the bill at the hearing and it was advanced without, of course, amendments and without any opposition.

SPEAKER NICHOL: Is there other discussion on the bill? If not, the question is the advancement of LB 378. All those in favor vote aye, opposed nay. Please vote. We are voting on the advancement of LB 378. Please vote. Have you all voted? Record, Mr. Clerk.
